

ENVIRON SERIES

*Breathe Pure with
Quad Air Protection*

TURBO COOL

This function helps cool the room faster by operating at maximum fan speed.

SLEEP MODE

An energy-saving mode that gradually increases temperature as you sleep, without affecting your comfort levels.

Energy Saver

The energy saver function shuts off the fan motor, whenever the compressor is switched off. This saves the power consumed by the fan motor.

Auto Clean

This function removes any moisture in the indoor unit which prevents rusting of the evaporator coil and growth of harmful microbes within the AC.

QUIET MODE

Ultra quiet operation - sleep in comfort. Any time. Any season.

SERVICE THAT PUTS YOU FIRST

Enjoy Extended warranty of upto 5 & 10 years (Model Specific).

Mircromax air conditioners have four filters which protect your family from polluted air. In the first 2 filtration stages, PM 2.5 & PM 0.3 filters extract the harmful particles present in the air. Then the air reaches the anti-allergen filter which removes active bacteria and viruses which are a big hazard to our health. In the final stage, the anti-VOC filter eliminates formaldehyde compounds and harmful gases responsible for damage to body organs. Thus, resulting in a healthier & purer air for you to breathe.

- 100% Copper Protection • Super Efficient Condenser • LCD Remote Display
- Anti Corrosive Coating • Smart Dehumidifier • Turbo Mode • Low Noise • Quad Air Filter

SMART TVs
